ledges for people, institutions, and places. In short, this article tries to situate human geography in the times and places in which it has been produced.

Human Geography â€“ 2009 - Elsevier

Human geography is the branch of geography that deals with the study of people and their communities, cultures, economies, and interactions with the environment by studying their relations with and across space and place. Human geography attends to human patterns of social interaction, as well as spatial level interdependencies, and how they influence or affect the earth's environment. As an intellectual discipline, geography is divided into the sub-fields of physical geography and human geograp
